Experience

Frontend Simplified

Junior Frontend Developer | September 2024 – April 2026

- Built responsive web applications using JavaScript, React, Next.js, HTML, CSS, and Tailwind CSS.
- Developed interactive user interfaces using reusable components, state management, REST APIs, and asynchronous JavaScript.
- Collaborated with mentors and fellow developers through code reviews, project feedback, and technical discussions.
- Applied frontend development best practices to solve technical challenges and improve application functionality and user experience.

SaveSpend

Next.js, JavaScript, Tailwind CSS, Firebase, OpenAI API | October 2025 – December 2025

[<https://save-spend.vercel.app/>] | [<https://github.com/BenjaminBatres/SaveSpend>]

- Built a personal finance application that helps users manage budgets, track spending, and organize upcoming expenses.
- Developed budgeting, bills, and subscription management features to help users monitor recurring and planned expenses.
- Integrated the OpenAI API to provide users with an interactive AI-powered financial assistant.
- Built responsive interfaces with Tailwind CSS and reusable React components focused on intuitive user interactions.
- Implemented Firebase-based data management to support user-specific financial information and application functionality.

Skinstric AI

Next.js, JavaScript, Tailwind CSS | March 2025 – April 2025

[<https://skintric-project.vercel.app/>] | [<https://github.com/BenjaminBatres/Skinstric-Project>]

- Built a responsive AI-powered skin analysis application using Next.js and the OpenAI Vision API.
- Developed interactive skincare recommendation interfaces using Tailwind CSS and keyframe animations.
- Integrated image analysis functionality to process user-submitted images and display personalized results.
- Created reusable UI components for skincare recommendations and product information.
- Implemented responsive layouts and interactive animations to create a smooth and engaging user experience.

E-commerce Application

JavaScript, React, Tailwind CSS, REST API | Jan 2026 - Jan 2026

[<https://designer-product-e-commerce.vercel.app/>]

Benjamin Batres

github.com/BenjaminBatres | (661-292-1486) | me@benjaminbatres.dev | benjaminbatres.dev

- Built a responsive e-commerce application featuring product browsing, product details, filtering, and shopping cart functionality.
- Developed reusable React components for product cards, product galleries, navigation, and cart interactions.
- Integrated product data from an external API and transformed API responses to support the application's UI.
- Implemented responsive layouts and interactive user experiences using Tailwind CSS across desktop and mobile screen sizes.

Skills

Languages:

JavaScript, TypeScript, HTML, CSS

Frameworks & Libraries:

React, Next.js, Tailwind CSS, Redux

Backend & Data:

Node.js, Firebase, Prisma

Testing & Tools:

Jest, React Testing Library, Git, GitHub, Vercel, Figma

Education / Training

Frontend Simplified Bootcamp |

September 2024 - April 2026

Front End Now mentorship program |

April 2026 - Present
